EASY GROW COIR WEED MATTS®
Coir Weed Matt
(Needle Punch)

**Product bar Code
COIR60050301**

EasyGrowCoirWeedMatt® is a needled punch coir matrix bonded with natural latex binder. It is 100% biodegradable mat which can be used to stop erosion and control weeds. The weed mat completely breaks down within 15-18 months and provides mulch to the soil.

The porous structure of the mat helps water, fertilizer and air to penetrate through the coir fibers. It does not hold the heat and also helps roots and soil to breath. Eco-Weed mats are available in circular, square and roll forms. Each weed mat form has an appropriate cut, a middle hole and a split for easy installation.

Features & Benefits:

- Prevention of soil loss due to water and wind
- Elimination of sediment run-off to dry areas and water areas
- Protect the land surface from water and wind
- Protect seeds, keep the seeds in place and help seed germination
- Provide optimum conditions for the establishment of vegetation

Our Coir fibre soil bioengineering products play a significant role in today's soil bioengineering techniques. They strongly support the reinforcement of soil, as well as provide mulch and improve soil conditions

The organic alternative to plastic covers for Rockwool blocks. Use Caps to help prevent light penetration that may cause algae growth.

Sizes:

- 4" and 6" caps are available
- 4" - 10 packs per case and 125 packs per master carton – 48 MCs/pallet
- 6" - 10 packs per case and 63 packs per master carton – 48 MCs/pallet
- Orders upon Request for large quantities
