

Unleashing Nature's Potential

Technical Data Sheet

<i>Product code and Product</i>	
PRODUCT NAME	EASY GROW COIR NETTING®
PRODCT CODE	COIR60050201

Product

Erosion control blankets are made of coconut coir fibre with photo degradable or biodegradable top and bottom grids stitched up together as forming a sandwich. Top and bottom layers hold coir fibre with the help of stitched yarn.

These coir mats have been developed for extreme slopes, high-discharge channels, and applications requiring permanent protection and vegetal reinforcement.

These blankets prevent soil compaction and crusting. it resists wind and rain forces. These benefits accelerate vegetative development while the blanket decomposes overtime and become part of the soil.

We could supply erosion control blankets with PP netting or PP / Jute combination

Product Advantages

- Great for Stabilization or Longer Growth Periods
- Heavy Duty Netting for Increased Stability
- Perfect for Areas in Need of High Strength
- Functions on Steep Slopes or Areas with Increased Flow
- Made from 100% Coir Coconut fibre
- Netting Material: Double Polypropylene (photodegradable)
- Thread Used in Black Nonwoven Nylon

Product Application

- Slope Stabilization (1:1 to 2:1 slopes)
- Support in High-Flow Channels
- Long Term Erosion Control along Riverbanks or Shorelines

Product Usage

- Stream bank stabilization
- Shoreline protection
- Wetland mitigation
- Channel edge liner
- Wildlife habitats

Storage and Disposal

- Conditions for safe storage, including any incompatibilities
- Technical measures: Comply with applicable regulations.
- Storage conditions: Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials.
- Incompatible materials: Strong acids, strong bases, strong oxidizers.
